Becoming A Therapy Dog by Spencer (picture of Spencer in uniform) I'm Spencer, and I have been a therapy dog for six years! What do therapy dogs do? I provide comfort and companionship to patients in hospitals, nursing homes, and other institutions where Therapy Dogs are needed. I have many patients, but sometimes I am called to provide emotional support to college students. Last week I comforted some students at Occidental College who needed to relieve stress during final exam week. I became certified by passing a test, and I continue to renew my membership with Therapy Dogs International each year by getting all of my vaccinations and a thorough Vet check-up each year. If you have great disposition like me, don't mind loud noises, wheelchairs, crutches, and walkers around your paw area, you may be a great candidate. April "Yappy Hour" Recap

On April 27th, FHDP held a fundraiser at the dog park with local artist Nic Michaels, crafters Mallory & McCall, and Jeweler Christine Offutt selling their wares. Park patrons could purchase original art from Nic, hiking staves, hand-braided dog leashes and hand-made adornments from Mallory & McCall, and bottlecap necklaces from Unorthodox Jewelry. Thank you to everyone who came out for this great cause. Check out the pictures from April Yappy Hour on our Facebook page.

Ten Common-Sense Dog Bite Prevention Tips by Dr. Becker

National Dog Bite Prevention, and the American Veterinary Medical Association's focus is to educate people about dog bite prevention. Here are some statistics:

- * Each year 4.5 - 5 million people in the U.S. are bitten by a dog(s)
- * About 20% of those bitten need medical care at the hospital
- * About 400,000 children require medical attention from dog bites
- * Senior citizens are the next highest victim, after children to require medical attention

So what can you do? Socialize your dog, make sure your dog gets plenty of exercise, take proactive care of your pet's health. Also, always use a leash to correct your dog, and teach obedience. To learn

Target locations were selected by ASNC's PLUC Committee.

Resident dogs Diva and Gigolo came out to see what all the noise was about.

The Truck needs an update to give Mayor Garcetti credit.

The Pothole Blitz program will be funded for another round, so send your requests to landuse@asnc.us.

ASNC Sponsors Long Running Museums of the Arroyo Day

We spent a beautiful day greeting visitors to the Lummis Home and helping direct them to their destinations on foot, car and free shuttle bus: Heritage Square, the Southwest Museum, the Police Museum, Pasadena History Museum and the Gamble House.

Teri Bonsell and her daughter Laura man the information table at Lummis Home.

A Neighborhood Purposes Grant given last year to the Lummis Home helped pay for upgraded windows and the beautiful new fixtures designed to echo the original lights Mr. Lummis had installed.

Visitors appreciated the promotional trinkets we offered.

Councilmember Huizar Secures Extension of Public Comment Period on Scholl Canyon Landfill Expansion Draft Environmental Impact Report

Good news! Glendale officials agreed today to Councilmember Jose Huizar's request to grant a 60-day extension of the public comment period on the Scholl Canyon Landfill Expansion Draft Environmental Impact Report (EIR).

On Thursday, May 22, 2014, Councilmember Huizar sent a letter to the City of Glendale requesting that Glendale:

1. Extend the public comment period, which was scheduled to end on Friday, May 30th, to allow for proper review and adequate outreach in the City of Los Angeles.
2. Allow the LA City Council District 14 office to assist Glendale with outreach to Eagle Rock and to help facilitate effective outreach to all stakeholders.
3. Hold a community meeting in Eagle Rock about the project and EIR.

We will announce the meeting as soon as the date and location are set.

Excerpt from Councilmember Huizar's letter: "Eagle Rock residents are primary stakeholders in your project. Though City of Los Angeles businesses and residents are not allowed access to the landfill, the only active entrance to the site is through Eagle Rock. This access point is adjacent to homes, schools,

a major city park, and a historic cultural monument – all in the City of Los Angeles. As such, these City stakeholders bear a significant burden from the operation of the landfill, including trash and debris, pollution, traffic, and deteriorating road conditions in the area around the entrance to the landfill.

Eagle Rock deserves an opportunity to hear the full details and offer comment on the Draft EIR and proposed expansion and extension of the Scholl Canyon landfill. CD14 will work with the City of Glendale to set up a community meeting where Eagle Rock residents can be fully informed of the project and the Scholl Canyon Landfill Draft EIR."

In Case You Missed It: City of Glendale Plans to Expand the Scholl Canyon Landfill

The City of Glendale is proposing to expand Scholl Canyon Landfill to extend its useful life by another decade or more. The landfill is located just north of the 134 freeway in Glendale (see map above), and trucks can access the landfill only via Eagle Rock streets. Though the City of Los Angeles and Los Angeles residents are not permitted access to the landfill, we bear the brunt of impacts from truck traffic on the way to the dump.

The City of Glendale will be the Lead Agency and has prepared a Draft Environmental Impact Report (DEIR) for this project. The Sanitation Districts, an LA County agency, has identified two variations for the proposed project:

- Variation 1 - Vertical expansion only. Variation 1 will provide approximately 11.5 million cubic yards of additional capacity and will extend the life of the landfill by 13 years (assuming a continued baseline disposal rate of 1,400 tons per day).
- Variation 2 - Vertical and horizontal expansion. Variation 2 will provide approximately 16.5 million cubic yards of additional capacity and will extend the life of the landfill by 19 years (assuming a continued baseline disposal rate of 1,400 tons per day).

The proposed project will increase the capacity of the project site and therefore increase the life of the landfill to provide long-term disposal for the watershed. Neither variation would change current operations at the Scholl Canyon Landfill.

This is our truth:

The Church On York is closing down. After nearly a year converting a 101 year old historic church into a community arts & music space, we have hit some severe roadblocks that have forced us to close our doors for good.

We are so indebted to all those who helped us out along the way. We deeply appreciate the support we've had from the music, film and visual art community that have helped us mature and grow.

Thank you to all the fans who came to all of our events and hopefully had as great a time as we did. The time we've had here has been amazing and we are immensely proud of the events we have produced over the last few months.

Thank you to all our staff, investors and partners who have been patient and supportive since our first day in.

The majority of our events have already found homes at other venues across the city. Please find updates on Facebook, twitter & instagram for up to date news on new show information. If you've purchased tickets to any of our events through ticketfly you will receiving plenty of information about the status of all shows.

AA meetings / Al Anon / OA meetings will continue meeting till June 15th.

Thank You
The Church On York

Happy Friday! Are you excited for the three day weekend? This week I want to tell you about Justice For My Sister, Lupus Awareness Month, the Metro unFare increase and an update on the #BantheBag movement in Sacramento! I also want you to take a look back at William C. Velásquez. Enjoy the newsletter, and enjoy your THREE day weekend!

– G

Justice For My Sister

In 2012 a poignant film was released about a Guatemalan woman who defies all odds and pushes a machista system to demand answers to her sister's brutal murder. I had the great fortune of discovering this award-winning movie through my daughter, Valentina. Kimberly Bautista, who produced and directed it, was one of her college roommates. It is truly an amazing movie, but what's more amazing is that the work didn't stop with the film. MORE

Lupus Awareness Month

One of my Facebook friends recently reminded me that May is Lupus Awareness Month. So I wanted to make sure you all knew it, too! Lupus is an autoimmune disease where the body's immune system becomes hyperactive and attacks normal, healthy tissue. Anyone can get lupus. According to WomensHealth.gov, "About 9 out of 10 adults with lupus are women ages 15 to 45. African-American women are three times more likely to get lupus than white women. Lupus is also more common in Latina, Asian, and Native American women. Men are at a higher risk before puberty and after age 50."

Not a Fair Increase

Last week I decided to pen an op-ed on the proposed Metro fare increases. I personally believe that low-income and/or minority riders should not be disproportionately affected by a fare increase. If I had it my way, we'd cut the bureaucracy from within to make up the difference. The way the Board decided to do it yesterday, it just wasn't FAIR. MORE

#BantheBag

I last updated you in January when the California State Senate passed SB 207, the new Plastic Bag Ban bill which is currently moving through the Legislature. Last week, SB 270 passed a key Assembly Committee and moved on to Appropriations. It will be heard next week! MORE

Looking Back: William C. Velásquez

William C. Velásquez was the ultimate community organizer. I had the honor of not only working with him, but also calling him a friend. He was the founder of the Southwest Voter Registration Education Project in 1974. MORE
